Effective Date:	8/1/2024
Print Date:	8/19/2024

Description:

Morning Star Preparatory Academy offers a summer program that is designed to reteach any concept missed by any individual student. Our goal is for every student to reach 100% mastery. All students have the opportunity to attend our summer school program with the goal to reach 100% mastery and to move on to the next grade with the confidence of having their concepts mastered. Students will be leveled the following year based on their previous end of year CAT scores, previous inclass grades, and teacher recommendations, unless they attend summer program. Summer program attendees have the opportunity to test at the end of summer school to check for improvement and qualification of higher placement. Please see student leveling policy for more information. For any student that attends summer school, an individualized packet of concepts missed on their 4th quarter CAT will be created for them to study and will be provided to the parent on the last day of school. Any student that scores below the required score will be encouraged to attend MSPA's Summer Program until all missed concepts are at 100% competency.

Attendance: A call will be made to the parents daily of any student that is absent unless the parent has called in to schedule an absence for a family outing etc.

Purpose:

The policy aims to inform parents about the benefits of summer school, such as academic reinforcement, skill development, and enrichment opportunities, helping them make informed decisions about their child's participation.
